

digiPRO

Processor

For use with LED screens

UNRIVALLED quality

The digiPRO provides video processing for all digiLED screens.

It accepts all commonly used video inputs, then resizes and processes the video for optimum picture quality on your LED screen.

Unrivalled value, incredible quality.

Everything you need:

- Fast boot up
- Optimised image quality
- Flexible scaling
- Built in test patterns
- Features best-in-class image quality and superb scaling
- Colour temperature and gamma correction functions to improve image render
